

## Tacoma Art Place – Art Instruction Series

Tacoma Art Place (TAP) is a non-profit art center (with 501c3 charitable status) in the heart of the revitalized MLK neighborhood with a mission to provide access to equipment and training that will allow more people to affordably explore their creativity and artistic ability. There is a special emphasis to reach underserved individuals with free or reduced-cost memberships and to offer arts education in the community.

Annually, TAP organizes free events for the general public and reaches out to underserved groups to offer art instruction around the community. This community arts education is supported by grants, foundation funds and charitable contributions. Because of this funding support, TAP is able to provide the instruction and supplies at no cost to the individuals.
