# STREET RESURFACING TRAFFIC DISRUPTIONS

## WORK IS BEING PERFORMED IN YOUR AREA IN THE NEXT THREE MONTHS

Please keep in mind this is an estimated time frame and many factors can affect scheduling. The first step is preparing your street for maintenance. This will take 1-4 days and during this time your street will be closed to through traffic but local traffic and access to driveways will be allowed.

The next step is street paving and this should take place 1-3 weeks after the street is prepared. This work involves **overlaying** the street with a 2 to 3 inch layer of asphalt. On the day of paving, your street will be closed and there will be no vehicular access to the street/driveway from approximately 8 a.m. to 5 p.m. Crews will open your street 4-6 hours after work is completed. All work is weather dependent and rescheduling may be required.

**Updates and additional information, including a list of dates and times of street closures, will be posted on reader boards in your area 48 hours in advance.**

Once street resurfacing is complete property owners and utilities will not be allowed to excavate the street for 5-years. The City recommends that property owners have their private side sewer inspected to check its condition. For more information, visit [cityoftacoma.org/SideSewer](http://cityoftacoma.org/SideSewer).

For more information, visit [cityoftacoma.org/TacomaStreets](http://cityoftacoma.org/TacomaStreets) or email [TacomaStreets@cityoftacoma.org](mailto:TacomaStreets@cityoftacoma.org) or call the Residential Program Supervisor at (253) 591-5495.

- Before work starts, prune vegetation so it does not extend into the street. Limbs should be at least 14 feet above the street surface and 8 feet above the sidewalk.
- Garbage pickup will be normal during preparation and maintenance.

The City of Tacoma's Public Works Department wants to hear from you. Once work in your neighborhood is completed, take the Tacoma Streets Initiative survey. Visit [cityoftacoma.org/TacomaStreets](http://cityoftacoma.org/TacomaStreets) and tell us about your experience.
