ORDINANCE NO. 28410

AN ORDINANCE relating to the Building Code; amending Chapter 2.02 of the Tacoma Municipal Code by amending Sections 2.02.185 and 2.02.590 thereof, to incorporate references to FEMA Region X’s updated Flood Insurance Rate Map which identifies Special Flood Hazard Areas within the City, to become effective March 7, 2017.

WHEREAS, on December 1, 1983, the Department of Homeland Security, Federal Emergency Management Agency (“FEMA”), issued a Flood Insurance Rate Map (“FIRM”) that identified Special Flood Hazard Areas, which are areas subject to inundation by base floods (1 percent annual chance) within the City of Tacoma and surrounding communities, and

WHEREAS the City has been enforcing the 1983 FIRM map since March 25, 1987, and

WHEREAS FEMA recently completed a reevaluation of flood hazards for these areas, and on December 19, 2014, issued preliminary copies of the FIRM and Flood Insurance Study (“FIS”) which identify existing flood hazards and Base Flood Elevations (“BFEs”), and

WHEREAS the proposed flood hazard determinations were published in the News Tribune and Federal Register, and the statutory 90-day appeal period has ended with no appeals; therefore, the final rule for these flood hazard determinations will become effective on March 7, 2017, and

WHEREAS, in order to comply with requirements under the National Flood Insurance Act of 1967 and to continue eligibility in the National Flood Insurance Program, the City is required to adopt the current floodplain management regulations, which regulations are contained in TMC Chapter 2.02, Building Code, and
WHEREAS the 2017 FIRM maps include higher BFEs in coastal areas, which will require that buildings and structures be built at higher elevations, and

WHEREAS some coastline flood zones are changing from V zone to Coastal A zone, which will provide relief from additional flood zone construction standards for these zones, and

WHEREAS the 2017 FIRM maps do not include the Puyallup Levee Overtopping Layer, because this part of the flood study is in litigation and may be adjusted based on additional studies that FEMA is completing in this area, and

WHEREAS, as the flood study will likely be completed within a few years and will likely incorporate most of the area of the Puyallup Levee Overtopping Layer in its current boundaries, PDS staff is recommending inclusion of the Puyallup Levee Overtopping Layer as a Special Flood Hazard Area that the City will enforce with its flood zone regulations, and

WHEREAS the proposed amendments were presented to the Building Board of Appeals on February 2, 2017, and the Infrastructure, Planning, and Sustainability Committee on February 8, 2017, and were recommended for consideration by the City Council; Now, Therefore,
BE IT ORDAINED BY THE CITY OF TACOMA:

Section 1. That Chapter 2.02 of the Tacoma Municipal Code, Building Code, is hereby amended at Sections 2.02.185 and 2.02.590, as set forth in the attached Exhibit “A.”

Section 2. That Section 1 shall become effective on March 7, 2017.
