BY REQUEST OF MAYOR STRICKLAND AND COUNCIL MEMBERS CAMPBELL, IBSEN, AND MELLO

A RESOLUTION relating to protecting the privacy and security of Click Network! internet users.

WHEREAS, in 1997, the City, through its electrical utility, embarked on an effort to construct and operate a state-of-the-art telecommunication system for the benefit of its electric utility and electric utility customers, and

WHEREAS the telecommunications system (“Click! Network”) was constructed and has been in continuous operation since 1999, and

WHEREAS Click! Network has entered into agreements with private internet service providers (“ISPs”) to use the Click! Network to provide internet services to approximately 25,000 retail customers, and

WHEREAS Click! Network and the ISPs have the ability to collect personal information resulting from their customers’ use of the internet, including (a) financial information; (b) health information; (c) information pertaining to children; (d) social security numbers; (e) precise geolocation information; (f) content of communications; (g) call detail information; and (h) web browsing history, application usage history, and the functional equivalents of either, from the users of their services, and

WHEREAS, in 2016, the United State Federal Communications Commission (“FCC”) proposed rules that would have required Click! Network and the ISPs to receive permission from their customers prior to collecting and selling such personal information, and

WHEREAS, on April 3, 2017, President Trump signed a United States congressional resolution that overturned the FCC internet privacy protections
related to Click! Network and the ISPs collecting and selling personal information resulting from internet use, and

WHEREAS the Washington State Legislature has proposed legislation ("HB 2200 and SB 5919") that would institute similar protections included in the prior FCC internet privacy rules; however, it is unlikely that such protections will be enacted into law before the current legislative session ends, and

WHEREAS protecting the privacy and security of Click! Network customers is of vital concern to the City Council, and the City Council desires that the Tacoma Public Utility Board ("Board") prohibit Click! Network and its ISPs from collecting or selling their customers' personal information without prior written permission, or refusing to serve customers who do not approve the collection or sale of their personal information; Now, Therefore,

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF TACOMA:

Section 1. That the City Council hereby requests that the Tacoma Public Utility Board ("Board") prohibit internet service providers (including Click! Section 2. That the City Council hereby requests that the Board prohibit its internet service providers (including Click! Network pursuant to an “All-In” Retail Business Plan) from refusing to provide services to a customer on the grounds that the customer has not approved the collection or sale of the customer’s personal information.
Section 3. That the City Council hereby requests that in the event that
Click! Network is sold or leased, the prohibitions as set forth in Sections 1 and 2
above be included as condition of the sale or lease.

Section 4. That the prohibitions requested in this resolution shall remain in
effect until such time as either the federal government or the state of Washington
enacts the same or broader privacy and security protections for internet users.
