PRIORITY AREA OVERVIEW

Increase the percentage of residents who believe they are able to have a positive impact on the community and express trust in the public institutions in Tacoma.

Why do some people get involved while others often do not? The answer often comes down to whether they trust public institutions that are asking to engage with them, as well as whether or not they feel like their input and efforts are taken into consideration or have an impact. Further, many communities have generations of experience where their voice was not taken into consideration when decisions were made. In order to increase the number of people who vote, the diversity of the people who participate civically, and improve the quality of life for all Tacoma residents, we must ensure that more residents have experiences that reinforce their impact on the community and increase trust in local government.
OUTREACH SUMMARY

Community Survey
• 54% of respondents rated their confidence with the Municipal Government as "excellent" or "good".
• 22% believed their participation in civic activities was "very impactful" or "impactful"

Summer Outreach
When asked what prevented residents from trusting the City of Tacoma and other local institutions:
• 14% of respondents mentioned they believe that City employees are not held accountable;
• 13% mentioned that they believe the City does a poor job of representing the community and that special interests have an outsized influence on decision-making.

When asked what the City should do to build trust with the community:
• 18% asked for the City to do a better job of listening to residents and follow through with action;
• 17% asked for the City to defund the Police Department;
• 17% called for the City to expand engagement opportunities.

"Take ownership of mistakes, embrace transparency, keep hosting live conferences. Find ways to communicate with all groups, taking into consideration access. Increase your social media presence."
