EQUAL EMPLOYMENT OPPORTUNITY AND RECRUITMENT PLAN

Introduction

The City of Tacoma's Vision Statement focuses on Tacoma as a livable and progressive international city well regarded for the richness of its multi-cultural population and natural setting. The City's Mission Statement has at its core the goal of providing high-quality, innovative and cost-effective municipal services that enhance the lives of its residents.

Additionally, the City's 2005-2010 Strategic Plan includes a strategic initiative to develop and implement an Equal Employment Opportunity and Recruitment Plan that targets for improvement key areas of diversity under-representation. With that in mind, determining ways to attract and maintain a well-qualified and diverse work force and a work environment free of discrimination and bias are primary motivators behind this plan.

Implementation of the Equal Employment Opportunity and Recruitment Plan will allow us to attract and retain a qualified work force that is a reasonable representation of the relevant labor market as determined by business conditions and number of placement opportunities that may occur, while still meeting federal and state requirements. Placement goals are viewed as objectives reasonably attainable by means of applying good-faith effort to make all aspects of the affirmative action program work. These goals are also used to measure our progress toward achieving equal employment opportunity.

The City of Tacoma's Equal Employment Opportunity and Recruitment Plan is designed to meet the requirements of Executive Order 11246 and the Department of Labor's Federal Contractor's affirmative action requirements and state law. Accordingly, annual percentage placement goals have been established according to the availability figure for women or minorities, as appropriate, for the work force in each City department. These goals are not to be misconstrued as rigid and inflexible quotas that must be met, nor as either a ceiling or a floor for the employment of particular groups.

The City's success in meeting federal and state requirements will not be solely on whether goals are attained, but upon whether good-faith efforts have been made. Therefore, the City is moving forward with this Equal Opportunity and Recruitment Plan with an emphasis placed on ensuring that its employment processes are non-discriminatory and that every good-faith effort is made to address any problem areas through outreach and action-oriented programs.

Summary

The Equal Employment Opportunity and Recruitment Plan declares the City of Tacoma's commitment to diversity and to the goal of creating and maintaining a work environment free of all forms of discrimination and bias. This plan reaffirms the City's recognition that proactive and planned measures must be undertaken for the following purposes:

- To recruit, hire, develop and retain qualified and diverse individuals for City employment;
- to remedy the effects of possible past discrimination that may manifest themselves in under-representation of certain groups in the work force, and
- to foster a work environment where employees from diverse backgrounds can and do reach their potential.

This plan proposes the following general strategies to attain the above goals:

- Identify and maximize recruitment, hiring and retention methods that have yielded success, and eliminate or minimize barriers in all of these areas over which the City or its agents have control.
- Compare the City's current work force demographics to the relevant and qualified labor market to accurately determine areas of significant under-representation.
- Review department and overall City performance in attaining goals on an annual basis and hold directors and managers responsible for a good faith effort to meet the goals established.
- Update and implement a management training program for prevention and early resolution of EEO concerns.

Business Rationale

The plan supports the City's Strategic Plan in the following ways:

- The plan supports the City's goal for a safe, healthy, livable community by increasing, emphasizing and strengthening partnerships with community organizations, neighborhood groups and business associations.
- The plan supports the City's goal for a balanced, vibrant economy by enhancing the City's ability to take full advantage of the diverse labor market and attract diverse investors and businesses.

- The plan supports the City's goal for a results-oriented government by implementing strategies that increase cultural diversity in the City's work force, by promoting effective interactions with ethnic populations and by enhancing policies and programs that assure equality of opportunity and prevention of discrimination.
- The plan supports the City's goal for a results-oriented government by facilitating the City's adaptation to the changing composition of the work force.

The plan supports the City's ability to compete for and retain government funding:

- The plan satisfies Department of Defense affirmative action requirements for Tacoma Public Utilities.
- The plan satisfies Department of Economic Development affirmative action requirements for grants to the Tacoma Economic Development Department.
- The plan satisfies Department of Justice Affirmative Action/Equal Employment Opportunity Program requirements for grants to the Tacoma Police and other City departments.
- The plan satisfies federal Affirmative Action/Equal Employment Opportunity Program requirements for future potential projects grants and other activities in which the City of Tacoma chooses to participate.

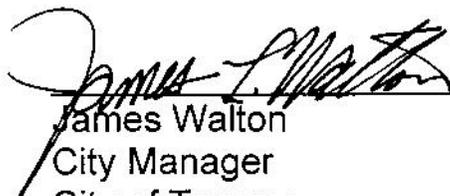

EEO Policy Statement

The City of Tacoma is an Equal Employment Opportunity employer. It is our policy that qualified people will be considered for employment, promotion, training and retention, without regard to race, religion, color, national origin or ancestry, sex, gender identity, sexual orientation, age, marital status, familial status (including pregnancy and/or adopting or having custody of a child under the age of 18) or the presence or perceived presence of any sensory, mental or physical disability. This policy also applies to any veteran honorably discharged from any branch of the armed forces of the United States.

The overall goal of the City's Equal Employment Opportunity policy is to promote the recruitment and eliminate barriers to hiring, promotion, training and retention of qualified individuals in under-represented or under-used groups.

The City Manager and the Director of Public Utilities assume responsibility for implementing this policy and specifically the City's Equal Employment Opportunity and Recruitment Plan. Department and division directors, managers and supervisors are responsible for enforcing this policy and the City's anti-discrimination policies. All employees are expected to comply with the provisions of the City's policies against discrimination. Periodic review of each department's progress is required under this policy.

As appointing authorities, we hereby direct that this plan be implemented in accordance with the City's Equal Employment Opportunity and Recruitment policy.

Plan Objectives and Strategies

The plan has multiple strategies and techniques that are to be implemented. The following major objectives provide the framework for the plan:

Objectives

- (1) Conduct ongoing statistical analysis of the City's work force to determine groups that may be under-used. Take steps to remedy under-utilization to promote full participation at all levels of employment.
- (2) Take proactive measures to ensure that applicants are considered for employment and employees are considered for promotion, transfer and training without regard to race, religion, color, national origin or ancestry, sex, gender identity, sexual orientation, age, marital status, familial status or the presence of any sensory, mental or physical disability.
- (3) Take proactive measures to ensure that people with disabilities are considered for employment, promotion, transfer and training without regard to physical, mental or sensory disability, and continue to provide an interactive process to evaluate requests for reasonable accommodation.
- (4) Take proactive measures to ensure that qualified veterans and special disabled veterans are considered for employment, promotion, transfer and training with due regard for their veteran status.
- (5) Take proactive measures to eradicate the present effects of past discrimination, if any, and prevent all forms of illegal discrimination against any employee of the City.
- (6) Develop positive and productive relations with community groups, social service agencies, educational institutions and cultural organizations that serve racial minorities, women, persons with disabilities and veterans to facilitate targeted recruitment.

Strategies and Techniques

Strategy 1

Identify successful recruitment strategies and develop effective strategies in departments where under-utilization is identified:

- (1) Evaluate present recruitment methods to determine whether they yield qualified applicants from under-represented groups or whether corrective measures are needed.
- (2) Develop recruitment priorities by department based on projected job openings and level of under-utilization.
- (3) Evaluate and revise the job posting distribution lists and recruitment strategies as needed, based on the identified under-utilized groups for targeted recruitment efforts.

Strategy 2

Reduce barriers to recruitment of qualified applicants where the presence of such barriers is within the City's control:

- (1) Evaluate options for recruitment in the City's civil service environment.
- (2) Identify personnel rules or practices that may be barriers to hiring individuals from under-represented groups.
- (3) Develop proposals for revising or removing rules or contractual provisions that impede hiring and promoting underrepresented groups.
- (4) Identify barriers to the training and upward mobility of under-represented groups.
- (5) Develop strategies to address identified barriers.

Strategy 3

Use technology to accurately track effectiveness of recruitment, hiring, retention and promotional strategies.

- (1) Revise parity data for specific jobs based on changing job requirements and current census data.

- (2) Evaluate progress on compliance with requirements of the Vietnam Era Veterans' Readjustment Assistance Act of 1972.
- (3) Develop, gather and analyze feedback from stakeholders.
- (4) Conduct annual internal audits of the EEO and Recruitment Plan to measure effectiveness.
- (5) Revise and update the EEO and Recruitment Plan as necessary.
- (6) Provide summary report of the annual review to department heads, Quality Council, Executive Forum, Management Forum and other interested City officials.
- (7) Conduct annual review of departmental progress and report the status to the City Manager, the Director of Public Utilities, department directors and the Human Rights Commission.

Strategy 4

Review EEO policies and training, and develop programs and practices as necessary to promote a bias-free work environment:

- (1) Disseminate the City's Equal Employment Opportunity and Recruitment Plan policy statement.
- (2) Maintain a comprehensive EEO management training program to improve skills in preventing and responding to EEO complaints.
- (3) Provide refresher courses and training as applicable laws or policies change or as needed.
- (4) When possible, conduct exit interviews to track reasons for employee separation from employment.
- (5) Ensure understanding of the EEO and Recruitment Plan by managers and supervisors.
- (6) Provide EEO training at orientation sessions for new employees.
- (7) Implement continuing EEO training that can be tailored to meet specific needs of City departments or divisions, as needed.

- (8) Train all managers and supervisory staff in the proper response to complaints and enforcement of the City's policies against discrimination and retaliation.

Strategy 5

Enhance community awareness of opportunities for employment with the City of Tacoma:

- (1) Partner with apprenticeship programs and community volunteer opportunities.
- (2) Provide training opportunities that could lead to opportunities for permanent employment with the City.
- (3) Develop long-term outreach programs with the community's educational system that encourage development of a pool of qualified potential employees.

UTILIZATION ANALYSIS

The City of Tacoma produces a semi-annual Utilization Analysis report which includes the following quantitative analysis elements:

- (1) **Organizational profile** – Depicts the staffing pattern (Workforce Utilization report) within the City to determine whether barriers to equal employment opportunity exist in the organization. The profile provides an overview of the workforce that may assist in identifying organizational units where women or minorities are underrepresented or concentrated.
- (2) **Job group analysis** -Combines job titles within the City's organization. In the job group analysis, jobs at the establishment with similar content, wage rates, and opportunities, must be combined to form job groups. Similarity of content refers to the duties and responsibilities of the job titles which make up the job group. Similarity of opportunities refers to training, transfers, promotions, pay, mobility, and other career enhancement opportunities offered by the jobs within the job group. The job group analysis includes a list of the job titles that comprise each job group.
- (3) **Placement of incumbents in job groups** – Separately states the percentage of minorities and the percentage of women the City employs in each job group established by the Office of Federal Contract Compliance Programs (OFCCP).

- (4) **Determining availability** – Estimates the number of qualified minorities or women available for employment in a given job group, expressed as a percentage of all qualified persons available for employment in the job group.
- (5) **Comparing incumbency to availability** - Compares the percentage of minorities and women in each job group with the availability for those job groups as determined by OFCCP. When the percentage of minorities or women employed in a particular job group is less than reasonably expected given their availability percentage in that particular job group, the EEO Office will establish a placement goal in accordance with the OFCCP.
- (6) **Placement goals** – These goals serve as objectives or targets reasonably attainable by means of applying every good faith effort to make all aspects of the entire affirmative action program work. Placement goals are also used to measure progress toward achieving equal employment opportunity. The City's determination that a placement goal is required does not constitute a finding or an admission of discrimination.

Placement goals may not be rigid and inflexible quotas, which must be met, nor are they to be considered as either a ceiling or a floor for the employment of particular groups. Quotas are expressly forbidden.

In all employment decisions, the City must make selections in a nondiscriminatory manner. Placement goals do not provide the City with a justification to extend a preference to any individual, select an individual, or adversely affect an individual's employment status, on the basis of that person's race, color, religion, sex, or national origin.

Additionally, placement goals do not create set-asides for specific groups, nor are they intended to achieve proportional representation or equal results. These goals may not be used to supersede merit selection principles. Affirmative action programs prescribed by the OFCCP regulations do not require the City to hire a person who lacks qualifications to perform the job successfully, or hire a less qualified person in preference to a more qualified one.
