What Is Being Considered?

The Planning Commission is seeking public comment on the Proposed Project List to be incorporated into the six-year Capital Facilities Program for 2021-2026, before making a recommendation to the City Council.

The Capital Facilities Program (CFP) is an element of the City of Tacoma's *One Tacoma* Comprehensive Plan. It provides a bridge between the City's long-term plan and the budget process but does not appropriate funds. The current CFP is being amended from 2019-2024 to 2021-2026 pursuant to the State Growth Management Act (RCW 36.70A.130), and the CFP for 2021-2026 will be considered for adoption by the City Council in November 2020 concurrently with the 2021-2022 Biennial Budget.

The CFP identifies and describes projects that are proposed for funding during the 2021-2026 timeframe. Proposed projects must be consistent with and implement the policies of *One Tacoma* Comprehensive Plan. The new projects vary in sizes, are located citywide, and fall into the following categories:

- Community Development
- Cultural Facilities
- General Government Municipal Facilities
- Libraries
- Local Improvement Districts
- Parks and Open Space
- Public Safety
- Solid Waste
- Surface Water
- Tacoma Power
- Tacoma Rail
- Tacoma Water
- Transportation
- Wastewater

Environmental Review

The City of Tacoma has made a preliminary determination that this project does not have a probable significant adverse impact on the environment and has issued a preliminary Determination of Nonsignificance after review of an environmental checklist, a copy of which is available upon request. Comments on the preliminary determination must be submitted by 4:00 p.m. on Wednesday, July 1, 2020. The Responsible Official will reconsider the DNS based on timely comments and may retain, modify, or, if significant adverse impacts are likely, withdraw the DNS. Unless modified by the City, this determination will become final on July 8, 2020.
