

City of Tacoma Seeks Applicants for the Parking Technical Advisory Group

The Parking Technical Advisory Group (PTAG) is looking for volunteers to participate in discussions and recommendations focused on the parking system in Tacoma. Applicants must be a Tacoma resident or own a business in Tacoma. The PTAG duties include monitoring and advisory recommendations for the on-street parking system and some oversight of the publicly owned off-street parking facilities. The PTAG is a diverse and committed group of volunteers who typically meet on the first Thursday of each month for two (2) hours. All those interested are encouraged to apply. The PTAG is looking to recruit a balanced representation of various stakeholders. Currently there are preferences for candidates living or working in the downtown or a business district, a higher education/campus life representative, and a medical care worker/provider representative.

To become a candidate for consideration, please complete and submit this application. The Co-Chairs will review the applications received and then they will schedule in-person interviews with the most qualified candidates. The Co-Chairs will then forward their recommended candidates list to the Tacoma City Manager for consideration.

VOLUNTEER APPLICATION

Name: _____

Phone: _____

Organization: _____

Address: _____

Email: _____

Check the box(s) that best portray who you are or represent (check all that apply):
