## **SPECIAL NOTICE TO BIDDERS**

Public works and improvement projects for the City of Tacoma are subject to Washington state law and Tacoma Municipal Code, including, but not limited to the following:

### **I. STATE OF WASHINGTON**

#### **A. RESPONSIBILITY CRITERIA – STATE OF WASHINGTON**

In order to be considered a responsible bidder the bidder must meet the following mandatory state responsibility criteria contained in RCW 39.04.350:

1. Have a current certificate of registration as a contractor in compliance with chapter 18.27 RCW, which must have been in effect at the time of bid submittal;
2. Have a current Washington Unified Business Identifier (UBI) number;
3. If applicable:
  - a. Have Industrial Insurance (workers' compensation) coverage for the bidder's employees working in Washington, as required in Title 51 RCW;
  - b. Have a Washington Employment Security Department number, as required in Title 50 RCW;
  - c. Have a Washington Department of Revenue state excise tax registration number, as required in Title 82 RCW and;
4. Not be disqualified from bidding on any public works contract under RCW 39.06.010 (unlicensed or unregistered contractors) or 39.12.065(3) (prevailing wage).
5. Have received training on the requirements related to public works and prevailing wage under this chapter and chapter 39.12 RCW and must designate a person or persons to be trained on these requirements. The training must be provided by the department of labor and industries or by a training provider whose curriculum is approved by the department. Bidders that have completed three or more public works projects and have had a valid business license in Washington for three or more years are exempt from this subsection.

#### **B. RECIPROCAL PREFERENCE FOR RESIDENT CONTRACTORS:**

Effective March 30, 2012, RCW 39.04.380 imposes a reciprocal preference for resident contractors. Any bid received from a non-resident contractor from a state that provides an in-state percentage bidding preference is subject application of a comparable percentage disadvantage.

A non-resident contractor from a state that provides an in-state percentage bidding preference means a contractor that:

1. Is from a state that provides a percentage bid preference to its resident contractors bidding on public works projects, and
2. Does not have a physical office located in Washington at the time of bidding on the City of Tacoma public works project.

The state of residence for a non-resident contractor is the state in which the contractor was incorporated, or if not a corporation, the state in which the contractor's business entity was formed.

The City of Tacoma will evaluate all non-resident contractors for an out of state bidder preference. If the state of the non-resident contractor provides an in-state contractor preference, a comparable percentage disadvantage will be applied to the non-resident contractor's bid prior to contract award. The responsive and lowest and best responsible bidder after application of any non-resident disadvantage will be awarded the contract.

The reciprocal preference evaluation does not apply to public works procured pursuant to RCW 39.04.155, RCW 39.04.280, federally funded competitive solicitations where such agencies prohibit the application of bid preferences, or any other procurement exempt from competitive bidding.

Bidders must provide the City of Tacoma with their state of incorporation or the state in which the business entity was formed and include whether the bidder has a physical office located in Washington.

The bidder shall submit documentation demonstrating compliance with above criteria on the enclosed State Responsibility and Reciprocal Bidder Information form.

**C. SUBCONTRACTOR RESPONSIBILITY**

1. The Contractor shall include the language of this subcontractor responsibility section in each of its first tier subcontracts and shall require each of its subcontractors to include the same language of this section in each of their subcontracts, adjusting only as necessary the terms used for the contracting parties. The requirements of this section apply to all subcontractors regardless of tier.
2. At the time of subcontract execution, the Contractor shall verify that each of its first-tier subcontractors meets the following bidder responsibility criteria:
  - a. Have a current certificate of registration as a contractor in compliance with chapter 18.27 RCW, which must have been in effect at the time of subcontract bid submittal.
  - b. Have a current Washington Unified Business Identifier (UBI) number.
  - c. If applicable, have:
    - i. Industrial Insurance (workers' compensation) coverage for the bidder's employees working in Washington, as required in Title 51 RCW;
    - ii. A Washington Employment Security Department number, as required in Title 50 RCW;
    - iii. A Washington Department of Revenue state excise tax registration number, as required in Title 82 RCW;
    - iv. An electrical contractor license, if required by Chapter 19.28 RCW;
    - v. An elevator contractor license, if required by Chapter 70.87 RCW and;

If the bidder disagrees, the bidder may appeal the determination in a manner consistent with the City's Protest Policy. ### **1.2 Qualified Superintendent**

The contractor shall employ a competent superintendent who shall be present at the project site at all times during the entire progress of the work. The superintendent shall be on site even when only a subcontractor is working, unless otherwise approved by the engineer/project lead. ### **4.1 Overview**

The City of Tacoma (City) / Tacoma Public Utilities (TPU) is soliciting bids to establish one or more contracts with qualified vendors to fulfill the City's needs for asphalt street patching, utility cut and repair services, paint striping, crushed rock, asphaltic and concrete paving and sealing and miscellaneous concrete work as required to provide complete road patching or concrete repairs for citywide use.

The intention is to award a single contract, but the city reserves the right to award multiple contracts if it is deemed to be in the best interest of the city. The cumulative value of contracts awarded under these specifications is anticipated to be \$6,000,000.

### **4.2 Compliance with Standards**

All work shall meet the requirements of the City of Tacoma and other jurisdictions. Within the City of Tacoma this shall include the [Right-of-Way Restoration Policy](#) and [City of Tacoma Curb Ramp Installation Matrix](#).

#### **4.3 On-Call Nature of Work**

- 4.3.1 The intent of this contract is to provide on-call contract for asphalt and concrete paving and related services at locations throughout the Tacoma Power and Tacoma Water service areas. As such, all contract items with individual measurements should be bid with consideration that services will not be delivered at once but through individually ordered projects at various locations.
- 4.3.2 Services will occasionally be required at more remote City facilities and the proposal form solicits mobilization pricing to these sites so line-item pricing can be held fixed even at these sites. See Appendix A for more information on the remote locations.
- 4.3.3 Neither the contract values nor the quantities given in the proposal page are a guarantee of spend, but rather an estimate based on usage of the previous contract. Actual spend and quantities will depend on the work ordered, authorized and performed under the contract.
- 4.3.4 In all cases, the City's contract is with one (1) general contractor, and it is the general contractor's responsibility to ensure all work required to provide a complete utility patch is included in their bid. It is the contractor's responsibility to ensure all work is properly coordinated

#### **4.4 Assignment of Work**

- 4.4.1 Projects to be executed under this contract will be initiated using the Work Request Form in Appendix C or a department approved equivalent. Upon receipt of a Work Request Form, contractor will return a quote aligned with their response to this bid within the timeframe specified on the proposal form and not to exceed seventy-two hours.
- 4.4.2 An approved Work Request Form serves as notice to proceed. Once approved by the engineer/project manager, the contractor may be required to submit any additional required contract documents within twenty calendar days after authorizations. Upon completion of the documents, the contractor shall be available to perform the work.
- 4.4.3 Contractor may be required to attend a preconstruction meeting for projects. The contractor shall perform all requested repairs within the time frame agreed upon in that meeting.

#### **4.5 Project Coordination**

##### ***4.5.1 Pre-Construction Meeting***

For individual projects, engineer/project manager may or may not choose to have a pre-construction meeting. If held, minutes of the pre-construction meeting(s) will be sent to the contractor and all meeting attendees including Purchasing, LEAP and EIC offices. Recipients of the pre-construction meeting minutes will be required to direct any comments or changes to these minutes to the engineer/project lead within seven (7) days from the date of receipt. If no changes or comments are received within the seven (7) days, the meeting minutes will be kept by the engineer/project lead and become part of the project file.

Prior to commencement of any work under this contract the Contractor shall provide all required LEAP documentation to the LEAP Coordinator at a location, time and date determined by the LEAP Coordinator.

#### **4.5.2 Site Meeting**

Engineer/project manager will schedule site meetings on an as-needed basis during the contract period. Attendance is required of the contractor, site superintendent and major subcontractors at all such meetings. The engineer/project lead will discuss the need for site meetings with the contractor during the pre-construction meeting. Agenda will follow the same format as the pre-construction conference for applicable items.

Minutes of any site meeting will be sent to the contractor and all meeting attendees.

Recipients of the meeting minutes will be required to direct any comments or changes to these minutes to the engineer/project lead within seven (7) days from the date of receipt. If no changes or comments are received within the seven (7) days, the meeting minutes will be kept by the engineer/project lead and become part of the project file.

#### **4.5.3 Performance Review**

Engineers/project managers will be encouraged to fill performance reviews with the contract administrators. See sample performance review form in Appendix C. At the determination of the contract administrator the contractor is required to attend a review of their performance under this contract at no less than each six-month contract period. The contractor will be notified of the time and location of the meeting. The City reserves the right to terminate the contract if the contractor receives unacceptable reviews and/or fails to comply with the requirements of this specification. The City will be the sole judge of the contractor's ability to meet the requirements of this paragraph. If the contract is terminated within the initial twelve-month contract period, the City reserves the right to contact the next responsible and responsive apparent low bidder(s) and negotiate a contract for services under these specifications based on their bid proposal.

#### **4.5.4 Permits**

The contractor will be responsible to obtain all required permits and approved traffic control plans inside the Tacoma City limits through Environmental Services Site Development. The contractor will work under the City's permit in Pierce or King Counties, and the municipal jurisdictions. Permit number will be provided on the patch request.

Work within the Tacoma City limits shall be coordinated with the City of Tacoma, Public Works Department, Mark Henry, Construction Manager, at 253-591-5771.

#### **4.5.5 Field Engineering**

##### **A. Survey Reference Points**

The contractor shall protect survey control points prior to starting site work and preserve permanent reference points during construction.

Promptly report to the engineer/project lead the loss or destruction of any reference point or relocation required because of changes in grades or other reasons.

Survey control damaged by the contractor shall be replaced by City forces and paid for by the contractor.

##### **B. Established by Engineer**

The engineer shall establish the baselines, catch basin locations, concrete slab locations, and utility vault locations with vertical control together with suitable number of benchmarks adjacent to the work as required for specific projects. Contractor's work shall conform to the horizontal and vertical controls unless deviations are obtained from the engineer.

The contractor shall keep the engineer/project lead informed in advance of the times they intend to do work, in order that lines and grades may be furnished. All requests for the survey crew to be at the job site shall require at least four (4) days advance notice to the engineer/project lead.

The engineer/project lead may adjust or relocate any portion of the project to meet site requirements or to improve the project without additional compensation to the contractor, provided such adjustments do not represent appreciable costs for additional labor and materials as determined by the engineer/project lead.

##### **C. To Be Established and Maintained by Contractor**

Based upon the information provided by the engineer/project lead, all other lines, grades, and detail surveys necessary for the execution and completion of the work, including slope stakes, batter boards, and other working points, lines and elevations, shall be established and maintained by the contractor.

After lines and grades for any part of the work have been given by the engineer, the contractor shall be held responsible for the proper execution of the work to such lines and grades, and all benchmarks, reference points and stakes given shall be carefully preserved by the contractor until authorized by the engineer/project lead to remove them. The contractor shall be responsible for any mistakes that may be caused by the unnecessary loss or disturbance of such benchmarks, reference points and stakes.

The contractor shall be financially responsible for additional stakeout performed by the engineer as required to replace survey reference points destroyed during construction.

The engineer reserves the right to check all work, have free access to all work, and shall have the full cooperation of the contractor in so doing.

#### **4.5.6 Coordination with Others**

It is possible that other contractors or the City will be working in the project areas during the time of construction. It shall be the responsibility of this contractor to coordinate its work with all other agencies and/or contractors within the project area.

All construction activities shall be coordinated daily, or as required, with the engineer/project lead or their designated representative. Changes to the schedule that will impact on dates shown as milestones on the schedule shall be coordinated with the engineer/project lead.

#### **4.5.7 Archaeological Investigations**

At the Cowlitz and Cushman Hydroelectric Projects, archaeological evaluation may be required, if excavation occurs. A certified professional archaeologist who meets the Secretary of Interior's guidelines for professionals and who is approved by the City will be involved prior to commencing work. Depending on the outcome of the initial evaluation, onsite monitoring may be required. Archaeological services will be procured and paid for by the City.

It is doubtful that cultural resources will be encountered at the hydro projects. However, if cultural resources are discovered as part of this project, archaeological evaluation will be required.

Due to determination of findings, the contractor may be required to change their method of operation to a method that has less impact on the site and is approved by the archaeologist.

#### **4.5.8 Protection of Existing Utilities and Improvements**

In addition to Section 3.03 "Notification of Other Governmental Agencies and Utilities When Underground Work is Involved" and Section 3.07 "Protection of Workers and Property" of the General Provisions:

The contractor shall protect from damage the utilities and all other existing improvements not provided for in the proposal or special provisions. The cost of labor, equipment and materials required to protect or replace said items shall be incorporated into the bid for the project.

#### **4.5.9 Superintendent**

The contractor shall employ a competent superintendent (foreman) who shall be present at the project site at all times during the entire progress of the work, except those times when the contractor is demobilized. The superintendent shall be on site even when only a subcontractor is working, unless otherwise approved by the engineer/project lead. The foreman shall be satisfactory to the contractor and shall have full authority to act on their behalf.

Clean Up

In addition to Section 3.11 - Cleaning Up of the General Provisions

At the end of each day, temporary patches will be installed if permanent patches aren't completed. All areas shall be left safe, clean and free of debris. Surplus excavation, material, tools, temporary structures, dirt and rubbish shall be removed and disposed of by the contractor, and the construction site shall be left clean to the satisfaction of the engineer/project lead.

Clean up is considered incidental to the project and no payment will be allowed. Collect waste daily and when containers are full, legally dispose of waste off site.

In the event that the construction or excavation activities uncover any archaeological items of significance to the City's retained archaeologist, said person may require that certain work be delayed or temporarily stopped. If the delay or work stoppage exceeds ten (10) days, this will be grounds for the contractor to request additional time to complete the contract. If the delay or work stoppage exceeds thirty (30) calendar days, the City may elect to eliminate the patch (es) from the contract and reasonably compensate the contractor for work completed.

#### **4.6 Jurisdictional Restoration Requirements**

4.6.1 By entering into a contract pursuant to these specifications, the contractor represents that they are familiar with city and county standards for asphalt and concrete patching on utility cuts across various kinds of roads and crossing. It is the responsibility of the contractor to be familiar with all current jurisdictional restoration requirements at the time of bid submission. Following contract award the contractor shall stay current with all jurisdictional restoration requirements and notify contracting agency upon discovery of a new or modified requirement that may affect the contract.

4.6.2 At the time of award, current standards for the city/county where the work is being completed are all adopted as part of the contract and requirements whether they are specifically listed or not. The concept of a contract pursuant to these specifications is that a company in the asphalt or concrete patching business knows the standards and is responsible to meet them for the various jurisdictions.

4.6.3 The project manager will identify the limits of the restoration prior to sending the Work Request Form, if known. Permanent repairs will not exceed those limits when indicated.

#### **4.7 Measurement and Payment**

4.7.1 Awardee will be required to register and become transactional Ariba.

4.7.2 Department specific subagreements will be created as needs arise.

4.7.3 Separate intents and affidavits will need to be filed for each subagreement. The information contained in the Intents and Affidavits for On-Call Contracts document in Appendix D will apply to each subagreement rather than the contract as a whole.

4.7.4 Invoices will need to be submitted against the correct subagreement and must include line-item pricing and be accompanied by the approved work request form.

- 4.7.5 The project leads, in coordination with the contractor, shall make all measurement and determine all quantities and the amounts of work done for payments under the contract.
- 4.7.6 Invoices will only be approved following 100% completion of the project.  
Should a project extend beyond 30 days, progress payments can be approved.  
Certified payrolls will need to be filed prior to payment of any invoices.
- 4.7.7 Subagreements will be closed out no less frequently than annually at which point, any held retainage will be released.

#### **4.8 Reporting Capabilities**

The Contractor shall have the ability to provide accurate and consistent reporting on a quarterly, semiannual and/or annual basis. The City may request that the Contractor provide reports of invoiced services/purchases provided to the City during the contract term. Within 20 business days of a request, the Contractor shall provide the City a report clearly titled with the contract name, Contractor name, Contractor contact information, and dates of report period. Each contract bid item shall be listed with the contract bid item number, contract bid item description, contract bid unit, usage by contract bid unit, bid unit price, and total dollar amount for each bid item.

#### **4.9 Proposal Items**

## 1.19 PAYMENT METHOD – EPAYABLES – CREDIT CARD ACCEPTANCE – EFT/ACH ACCEPTANCE

- A. Payment methods include:

    - Straight-through processing (buyer initiated). Immediate, exact payments directly deposited to supplier accounts by the City's provider bank; the supplier does not need to know card account details.
    - Supplier retrieves card account through the secure, on-line portal provided via email notifications sent by the City's commercial card provider.
  - Credit card. Tacoma's VISA procurement card program is supported by standard bank credit suppliers and requires that merchants abide by the VISA merchant operating rules. It provides "due immediately" payment terms.
    - Suppliers must be PCI-DSS compliant (secure credit card data management) and federal FACTA (sensitive card data display) compliant.
    - Suppliers must be set up by their card processing equipment provider (merchant acquirer) as a minimum of a Level II merchant with the ability to pass along tax, shipping and merchant references information.

  - Check or other cash equivalent. Standard terms are net 30 for this payment method.
- B. The City's preferred method of payment is by ePayables (Payment Plus) followed by credit card (aka procurement card). Suppliers may be required to have the capability of accepting the City's ePayables or credit card methods of payment. **The City of Tacoma will not accept price changes or pay additional fees when ePayables (Payment Plus) or credit card is used.**
- C. The City, in its sole discretion, will determine the method of payment for goods and/or services as part of the Contract.

Except when modified by the Special Provisions, the Contractor shall procure and pay for all permits and licenses necessary for the completion of this Contract including those permits required by the City of Tacoma. The City will obtain county or state road crossing permits if required. It is the Contractor's responsibility to fully comply with the Underground Utility Locate Law, Chapter 19.122 RCW. If the site conditions are "changed or differing" as defined by RCW 19.122.040(l), the Contractor may pursue the party responsible for not properly marking or identifying the underground facility. The Inspector and/or Engineer may advise the Contractor and the Safety Officer of any safety violations. It is the Contractor's responsibility to make the necessary corrections. Failure to correct safety violations is a breach of this Contract and, as such, shall be grounds for an order from the Safety Officer, Inspector or Engineer to cease further work and remove from the job site until the condition is corrected. Time and wages lost due to such safety shutdowns shall not relieve the Contractor of any provisions of Section 3.14 of this Specification and shall be at the sole cost of the Contractor. The purpose of this authority to stop work is to enforce the contract and not to assume control except to the extent necessary to ensure compliance with the provisions of this contract.

Any of the above actions by employees of the City of Tacoma shall in no way relieve the Contractor of his/her responsibility to provide for the safety of all persons, including his/her employees.

#### **B. Work Hazard Analysis Report**

The Contractor's superintendent shall represent the Contractor in his/her absence and all directions given to him/her shall be binding as if given to the Contractor directly. The Contractor shall give efficient supervision to the work, using his/her best skill and attention.

## **B. Character of Contractor's Employees**

The Contractor shall employ only competent, skillful, faithful and orderly persons to do the work, and whenever the Engineer administering the Contract shall notify the Contractor in writing that any person on the work is, in his or her opinion, incompetent, unfaithful, disorderly or otherwise unsatisfactory, the Contractor shall forthwith discharge such persons from the work and shall not again employ him or her on this Contract.

If applicable, a Schedule of Prevailing Wage Rates and/or the current prevailing wage determination made by the Secretary of Labor for the locality or localities where the Contract will be performed is attached and made of part of the Contract by this reference. If prevailing wages do apply to the Contract, Supplier and its subcontractors shall:

Be bound by and perform all transactions regarding the Contract relating to prevailing wages and the usual fringe benefits in compliance with the provisions of Chapter 39.12 RCW, as amended, the Washington State Prevailing Wage Act and/or the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable, including the federal requirement to pay wages not less than once a week,
2. Ensure that no worker, laborer or mechanic employed in the performance of any part of the Contract shall be paid less than the prevailing rate of wage specified on that Schedule and/or specified in a wage determination made by the Secretary of Labor (unless specifically preempted by federal law, the higher of the Washington state prevailing wage or federal Davis-Bacon rate of wage must be paid)and Additionally, in compliance with applicable federal law, contractors are required to pay wages not less than once a week.

In the event any dispute arises as to what are the prevailing rates of wages for work of a similar nature and such dispute cannot be adjusted by the parties in interest, including labor and management representatives, the matter shall be referred for arbitration to the Director of the State of Washington, Department of Labor and industries whose decision shall be final, conclusive and binding on all parties involved in the dispute.

## CITY OF TACOMA EQUITY IN CONTRACTING (EIC) AND LEAP PROGRAMS

### Bidders Special Instructions

As part of the City of Tacoma's ongoing work to address past disparities and to increase the City's contracting with and utilization of historically underutilized businesses, the Equity in Contracting (EIC) Program places requirements on City contracts for utilization of businesses certified by the Washington State Office of Minority and Women's Business Enterprise (OMWBE) and approved by the Equity in Contracting Program ("Certified Businesses"). The EIC Program also provides guidance and technical assistance to Certified Businesses who are interested in providing supplies, services and public works to the City of Tacoma.

The EIC Program requirements are contained in [Tacoma Municipal Code Chapter 1.07](#).

Contractors bidding on City of Tacoma projects are required to meet the stated EIC requirements. Bids will be evaluated on an individual basis to determine EIC compliance. **A contractor who fails to meet the stated EIC requirements will be considered non-responsible.** Bidders are also subject to the City's Equal Employment Opportunity policies prohibiting discrimination.

The stated EIC requirements may be met by the contractor or by identified subcontractors. All EIC Requirements may be met by using MBEs, WBEs, DBEs or SBEs from the OMWBE certified list ([OMWBE website](#)). It is the bidder's responsibility to ensure that their firm or identified subcontractors are certified by OMWBE and approved by the City of Tacoma EIC Program **at the time of bid submittal**. Business certification may be verified by contacting the EIC Office\*.

*For the OMWBE list, be sure to look for businesses in Pierce, King, Lewis, Mason, Grays Harbor, Thurston, or any counties adjacent to the county in which the work is performed per 1.07.050(2)(b-c). Contact the EIC Office\* if you have any questions.*

**The Equity in Contracting (EIC) forms included in these bid documents must be fully completed (including attachments) and included with bid submittals. Failure to include the required forms will result in the submittal being rejected as nonresponsive.**

#### **Post-Award Important Information**

**For all contracts that have requirements related to the EIC and LEAP policies, the City of Tacoma is utilizing two cloud-based software systems:**

- **B2Gnow** - Contractors and subcontractors must report payment information in the B2Gnow System on a monthly basis. The EIC Staff will monitor/audit that retainage is paid by the prime contractor to the subcontractor(s) within 10 [working] days after the subcontractors' work is satisfactorily completed. This will be monitored/audited using the B2Gnow System.
- **LCP Tracker** - This system must be used for submitting certified payroll(s) for both EIC and LEAP compliance.

City of Tacoma  
Community & Economic Development  
747 Market Street, Rm 900

Both systems are monitored/audited by EIC and LEAP staff to ensure contract compliance, proactively identify potential issues and track contract progress.

#### **1.07.010 Policy and purpose.**

It is the policy of the City of Tacoma that citizens be afforded an opportunity for full participation in our free enterprise system and that historically underutilized business enterprises shall have an equitable opportunity to participate in the performance of City contracts. The City finds that in its contracting for supplies, services and public works, there has been historical underutilization of small and minority-owned businesses located in certain geographically and economically disfavored locations and that this underutilization has had a deleterious impact on the economic well-being of the City. The purpose of this chapter is to remedy the effects of such underutilization through use of narrowly tailored contracting requirements to increase opportunities for historically underutilized businesses to participate in City contracts. It is the goal of this chapter to facilitate a substantial procurement, education, and mentorship program designed to promote equitable participation by historically underutilized businesses in the provision of supplies, services, and public works to the City. It is not the purpose of this chapter to provide any person or entity with any right, privilege, or claim, not shared by the public, generally, and this chapter shall not be construed to do so. This chapter is adopted in accordance with Chapter 35.22 RCW and RCW 49.60.400.

### **1.07.060 Program requirements.**

#### A. The program shall meet the following requirements:

##### 1. Establishment of Annual Goals.

The Program Regulations adopted pursuant to this chapter shall state reasonably achievable cumulative annual goals for utilization of Certified Businesses in the provision of supplies, services, and public works procured by the City. Cumulative annual goals for the participation of Certified Businesses in City contracts shall be based on the number of qualified Certified Businesses operating within the Tacoma Public Utilities Service Area. The dollar value of all contracts awarded by the City to Certified Businesses in the procurement of supplies, services, and public works shall be counted toward the accomplishment of the applicable goal.

##### 2. Application of Annual Goals to Contracts.

The Program Manager shall consult with City departments/divisions to establish department/division specific goals for competitively solicited contracts in accordance with this chapter and the Program Regulations.

#### B. Exceptions:

City departments/divisions or the Program Manager may request an exception to one or more of the requirements of this chapter as they apply to a particular Contract or Contracts. Exceptions may be granted in any one or more of the following circumstances:

##### 1. Emergency:

The supplies, services and/or public works must be provided with such immediacy that neither the City nor the contractor can comply with the requirements herein. Such emergency will be deemed documented whenever a waiver of competitive solicitation for emergency situations is authorized under Tacoma Municipal Code Chapter 1.06.257 or as may be hereinafter amended.

##### 2. Not Practicable:

The Contract involves special facilities or market conditions or specially tailored or performance criteria-based products, such that compliance with the requirements of this chapter would cause financial loss to the City or an interruption of vital services to the public. Such circumstances must be documented by the department/division awarding the Contract and approved by the senior financial manager or, for Contracts where the estimated cost is over \$500,000 (excluding sales tax), approved by the Board of Contracts and Awards ("C&A Board").

##### 3. Sole source:

The supplies, services, and/or public works are available from only one feasible source, and subcontracting possibilities do not reasonably exist as documented by the department/division awarding the Contract and approved by the senior financial manager or, for Contracts where the estimated cost is over \$500,000 (excluding sales tax), approved by the C&A Board.

##### 4. Government purchasing.

The Contract or Contracts are the result of a federal, state or inter-local government purchasing agreement and the use of such agreement in lieu of a bid solicitation conducted by the City is approved by the senior financial manager.

##### 5. Lack of certified contractors:

An insufficient number of qualified contractors exist to create any utilization opportunities as documented by the Program Manager.

#### C. Waiver:

If, after receipt of Submittals but prior to Contract award, it is determined that due to unforeseen circumstances, waiver of goals is in the best interests of the City, the Director or Superintendent of the department/division awarding the Contract may request in writing that the City Manager or designee, on behalf of General Government, or the Director of Utilities or designee, on behalf of the Department of Public Utilities, approve such waiver..

Waivers may be granted only after determination by the City Manager or Director of Utilities that compliance with the requirements of this chapter would impose unwarranted economic burden on, or risk to, the City of Tacoma as compared with the degree to which the purposes and policies of this chapter would be furthered by requiring compliance.

(Ord. 28766 Ex. A; passed June. 8, 2021: Ord. 28625 Ex. A; passed Nov. 5, 2019: Ord. 28141 Ex. A; passed Mar. 26, 2013: Ord. 27867 Ex. A; passed Dec. 15, 2009)

#### **1.07.070 Evaluation of submittals.**

A. All submittals for a supplies, services, or public works and improvements contracts shall be evaluated for attainment of the Certified Business requirements established for that contract in accordance with this chapter and the Program Regulations.

B. The determination of Certified Business usage and the calculation of Certified Business requirements per this section shall include the following considerations:

##### **1. General.**

The dollar value of the contract awarded by the City to a Certified Business in the procurement of supplies, services, or public works shall be counted toward achievement of the respective goal.

##### **2. Supplies.**

A public works and improvements contractor may receive credit toward attainment of the Certified Business requirement(s) for expenditures for supplies obtained from a Certified Business; provided such Certified Business assumes the actual and contractual responsibility for delivering the supplies with its resources. The contractor may also receive credit toward attainment of the Certified Business goal for the amount of the commission paid to a Certified Business resulting from a supplies contract with the City; provided the Certified Business performs a commercially useful function in the process.

##### **3. Services and Public Works subcontracts.**

Any bid by a Certified Business or a bidder that utilizes a Certified Business shall receive credit toward requirement attainment based on the percentage of Certified Business usage demonstrated in the bid. A contractor that utilizes a Certified Business as a subcontractor to provide services or public works shall receive a credit toward the contractor's attainment of the respective requirement based on the value of the subcontract with that firm.

##### **4. Brokers, Fronts, or Similar Pass-Through Arrangements.**

Certified Business acting as brokers, fronts, or similar pass-through arrangements (as such terms are defined in the Program Regulations) shall not count toward the requirement attainment unless the activity reflects normal industry practices and the broker performs a commercially useful function.

C. Evaluation of competitively solicited submittals for public works and improvements and for services when a requirement has been established for the contract to be awarded shall be as follows:

##### **1. When contract award is based on price.**

The lowest priced bid submitted by a responsive and responsible bidder will be reviewed to determine if it meets the requirement. Certified Businesses may self-count utilization on such bids if they will perform the work for the scope the requirement is based upon.

a. If the low bidder meets the requirements, the bid shall be presumed the lowest and best responsible bid for contract award.

b. Any bidder that does not meet the stated Certified Business requirements shall be considered a non-responsible bidder unless a waiver of one or more of the requirements of this chapter is granted, in the City's sole discretion, pursuant to the criteria and processes in Tacoma Municipal Code 1.07.060.C.

2. When contract award is based on qualifications or other performance criteria in addition to price, solicitations shall utilize a scoring system that promotes participation by certified contractors. The Program Regulations may establish further requirements and procedures for final selection and contract award, including:

a. Evaluation of solicitations for Architectural and Engineering (A&E) services;

b. Evaluation and selection of submittals in response to requests for proposals; and

c. Selection of contractors from pre-qualified roster(s).

(Ord. 28766 Ex. A; passed Jun. 8, 2021: Ord. 28625 Ex. A; passed Nov. 5, 2019: Ord. 28141 Ex. A; passed Mar. 26, 2013: Ord. 27867 Ex. A; passed Dec. 15, 2009)

#### **1.07.080 Contract compliance.**

A. The contractor awarded a contract based on Certified Business participation shall, during the term of the contract, comply with the requirements established in said contract. To ensure compliance with this requirement following contract award, the following provisions apply:

1. Any substitutions for or failure to utilize Certified Business projected to be used must be approved in advance by the Program Manager. Substitution of one Certified Business with another shall be allowed where there has been a refusal to execute necessary agreements by the original Certified Business, a default on agreements previously made or other reasonable excuse; provided that the substitution does not increase the dollar amount of the bid.
2. Where it is shown that no other Certified Business is available as a substitute and that failure to secure participation by the Certified Business identified in the solicitation is not the fault of the respondent, substitution with a non-Certified Business shall be allowed; provided, that, the substitution does not increase the dollar amount of the bid.
3. If the Program Manager determines that the contractor has not reasonably and actively pursued the use of replacement Certified Business, such contractor shall be deemed to be in non-compliance.

#### **B. Record Keeping.**

All contracts shall require contractors to maintain relevant records and information necessary to document compliance with this chapter and the contractor's utilization of Certified Businesses, and shall include the right of the City to inspect such records.

(Ord. 28766 Ex. A; passed Jun. 8, 2021: Ord. 28625 Ex. A; passed Nov. 5, 2019: Ord. 28141 Ex. A; passed Mar. 26, 2013: Ord. 27867 Ex. A; passed Dec. 15, 2009)

#### **1.07.090 Program monitoring.**

A. An Advisory Committee shall monitor compliance with all provisions of this chapter and the related Regulations. The Program Manager shall establish procedures to collect data and monitor the effect of the provisions of this chapter to assure, insofar as is practical, that the remedies set forth herein do not disproportionately favor one or more racial, gender, ethnic, or other protected groups, and that the remedies do not remain in effect beyond the point that they are required to eliminate the effects of under utilization in City contracting, unless such provisions are supported by a Disparity Study. The Program Manager shall have the authority to obtain from City departments/divisions, respondents, and contractors such relevant records, documents, and other information as is reasonably necessary to determine compliance.

B. The Program Manager shall submit an annual report to the Community and Economic Development Director, Director of Utilities, and the City Manager detailing performance of the program. The report shall document Certified Business utilization levels, waivers, proposed modifications to the program, and such other matters as may be specified in the Program Regulations.
