SECTION 1 – PROJECT INFORMATION AND REQUIREMENTS

A. PROJECT OVERVIEW

The City of Tacoma (CITY) is requesting proposals to secure the services of a consultant who can assist the CITY in drafting a subarea plan and Environmental Impact Statement (EIS) for the Port of Tacoma Manufacturing and Industrial Center.

Subarea planning allows for the establishment of a shared, long-term vision, and a more coordinated approach to development, environmental review and protection, and strategic capital investments in a focused area. Completion of a subarea plan will support the ongoing eligibility for, and prioritization of, transportation funding in the Port of Tacoma Manufacturing and Industrial Center. A well-developed plan for the Tideflats will provide great regional benefit. In addition, subarea planning meets the requirements of the State Growth Management Act (SGMA). The SGMA mandates that local comprehensive plans comply with VISION 2040 and directs local jurisdictions having one or more regionally designated centers to prepare a subarea plan for each.

The Subarea Plan, at a minimum, will address requirements under Washington State law to include State Environmental Policy Act (SEPA) environmental review, Growth Management Act (GMA), Shoreline Management Act (SMA), the Puyallup Land Claims Settlement, the Container Port Element and elements for certification of a Manufacturing and Industrial Center (MIC) by the Puget Sound Regional Council (PRSC).

The planning process is expected to culminate in a Subarea Plan that is ready to be presented for adoption by the Tacoma City Council as an element of the City's Comprehensive Plan. In addition, the Subarea Plan will provide potential text and map amendments to other elements of the City's Comprehensive Plan and amendments to the City's Land Use Regulatory Code, zoning districts, Shoreline Master Program, and Capital Facilities Program, including, but not limited to:

1. The Subarea Plan will protect the fisheries and shellfish resources that are essential to the Puyallup Tribe culturally and economically and shall support continued growth of the regional economy and the currently estimated 29,000 existing family-wage jobs in the maritime, manufacturing and industrial sectors, the provision of infrastructure and services necessary to support these areas, and the important role of the Tideflats area as an economic engine for the City of Tacoma, Pierce County, state, and the region while protecting the livability of surrounding areas.
2. The Subarea Plan will support and consider transportation and infrastructure that promotes connectivity to other regional employment centers and will provide reasonably efficient access to the core area through transportation corridors to include freight.
3. The Subarea Plan will establish environmental improvement goals for Commencement Bay, including providing for greater bay-wide diversity of ecosystems, restoration of historic functions and improvement of physical conditions to protect and enhance environmental and cultural resources.
4. The Plan will ensure the ability of the participating governments to compete effectively for grant funding.

5. The Plan will support, protect, and improve health and safety of area employees and residents of surrounding communities.
6. The Subarea Plan will be consistent with Tacoma's adopted planning policies and goals, as well as state, regional, and federal law, policies, and regulations.
7. The Subarea Plan will retain sufficient planning flexibility to secure emerging port and manufacturing/industrial opportunities and other economic opportunities.
8. The Subarea Plan will result in process improvements that will streamline Tideflat project permitting and environmental review and will provide predictable mitigation measures.
9. The Subarea Plan will materially preserve the area and boundaries of the Port of Tacoma Manufacturing and Industrial Center and will support resiliency strategies to prevent loss of manufacturing/industrial lands, transportation infrastructure, and environmental resources.
10. The Subarea Plan will promote and support opportunities for voluntary, proactive inter-jurisdictional plans and projects to clean up environmentally contaminated sites within the Tideflats.
11. The Subarea Plan will define and protect the core areas of port and port related manufacturing/industrial uses within the city. The Subarea Plan will resolve key land use conflicts along the edges of the core area, and minimize and mitigate, to the extent practicable, uses that are incompatible with industrial uses along the edge of the core area. The Subarea Plan will evaluate the use of transitions and buffers as a means of addressing compatibility with surrounding communities.
12. The Subarea Plan will be consistent with treaty-protected rights.

Suppliers may be asked to clarify their Submittal. This action shall not be construed as negotiations or any indication of intentions to award. If called upon, Supplier must respond to such requests within two business days or the timeframe set forth by the City in its request for clarification. Supplier's failure to respond to such a request may result in rejection of its Submittal.

1.20 EVALUATION OF SUBMITTALS

Submittals offering ePayable/Credit card acceptance may be compared against submittals offering a prompt payment discount to evaluate the overall cumulative effect of the discount against the advantage to the City of the ePayable/Credit card acceptance, and may be considered in determining the apparent lowest responsible submittal.
3. All other elements or factors, whether or not specifically provided for in a Solicitation, which would affect the final cost to, and the benefits to be derived by, the City, may be considered in determining the award of a Contract.
