[Doris Sorum, City Clerk; Bill Fosbre, City Attorney]

## SUBSTITUTE RESOLUTION NO. 40955

1 BY REQUEST OF DEPUTY MAYOR USHKA, AND COUNCIL MEMBERS  
2 HINES, McCARTHY, AND WALKER

3 A RESOLUTION relating to the Land Use Regulatory Code; modifying the  
4 timelines for the proposed land use code amendments pertaining to the  
5 use of shipping containers for storage, and expanded allowances for the  
6 use of electric fences, as previously directed by Resolution No. 40794  
7 and Resolution No. 40881, to be considered as part of the Planning  
8 Commission's 2023 Comprehensive Plan and Land Use Regulatory  
9 Code Amendment docket, and providing additional guidance for  
10 Planning Commission consideration.

11 WHEREAS the City Council adopted Resolution No. 40794 on June 8, 2021,  
12 and Resolution No. 40881 on November 30, 2021, directing the Planning  
13 Commission ("Commission") to review and recommend potential amendments to  
14 the Land Use Regulatory Code ("Code") pertaining to the respective issues of  
15 shipping containers for storage and electric fences as part of the 2022  
16 Comprehensive Plan and Code Amendment process, and

17 WHEREAS shipping containers are, per the Zoning Code, generally  
18 allowed only in industrial districts or as temporary uses in other areas, and electric  
19 fences are only currently allowed outright in industrial districts and through a  
20 variance in other districts, and

21 WHEREAS at its meeting on January 19, 2022, the Commission reviewed  
22 the City Council's requests and considered adding either or both issues to the 2022  
23 Amendment process, and

24 WHEREAS upon discussion, the Commission concluded that due to the  
25 complexity and significant impacts of both issues, as well as the extensive  
26

community engagement that would be needed, it would be difficult to incorporate  
1 them into the 2022 Amendment process, which was already under way, and

2 WHEREAS the Commission felt it more feasible for these issues to be  
3 addressed through the 2023 Amendment process, which has begun and is slated  
4 for completion in June 2023, and

5  
6 WHEREAS the Infrastructure, Planning, and Sustainability (“IPS”)  
7 Committee received a briefing from the Chair and Vice-Chair of the Commission  
8 on February 23, 2022, of the Commission’s initial assessment of the issues, and,  
9 upon deliberation, concurred with the Commission’s suggestions that the issues  
10 relating to electric fences and shipping containers be included in the docket for  
11 review through the 2023 Amendment process, and that evaluating shipping  
12 containers as innovative housing options be considered in coordination with Home  
13 in Tacoma Project Phase II, and

14  
15 WHEREAS the IPS Committee provided additional clarifications and  
16 suggestions concerning the scope of work for shipping containers: (1) the  
17 Commission should focus more on issues relating to using shipping containers as  
18 innovative housing solutions, and also shipping containers for storage and other  
19 uses specifically in commercial districts, and (2) the Commission’s review of  
20 development standards should ensure that shipping containers for residential use  
21 provide value-added accommodations and are safe to live in, and

22  
23  
24 WHEREAS the IPS Committee also provided additional clarification and  
25 suggestions concerning electric fences: (1) businesses have raised concerns of  
26 increased theft and safety issues that have added severe expenses, hence the

1 sense of urgency in the community for the regulatory review of this issue, (2) there  
2 are great concerns about equity, health, and safety regarding expansion of  
3 electric fences into areas outside the industrial zones that must be properly  
4 addressed, and (3) the Commission's review should include, but not be limited to,  
5 compatibility of the design and installation of electric fences with the surrounding  
6 environment, costs to businesses of permitting and installation of electric fences,  
7 site-by-site decisions or district-wide permissions, the applicability of conditional  
8 use permits, and the applicability of areas where commercial uses are present or  
9 allowed, and  
10

11 WHEREAS the Long-Range Planning Work Program is developed in  
12 concert with the Planning Commission and City Council, through the  
13 Infrastructure, Planning, and Sustainability Committee, based on project  
14 prioritization, public input and available resources, and while the next annual work  
15 program update is scheduled to occur in August 2022 the Committee has  
16 expressed an interest in also receiving a semi-annual work program update each  
17 year in the spring, and reviewing the capacity and process of review such that  
18 requests might be considered on a more timely basis in quickly changing  
19 environments, and  
20

21 WHEREAS the IPS Committee's recommendations concerning the  
22 Commission's scopes for review and timelines for the shipping container and  
23 electric fence issues require a resolution to amend Resolution No. 40794 and  
24 Resolution No. 40881; Now, Therefore,
