regular collection day

Holiday Collection Schedule
You can help
PREVENT FLOODING
Know what drains into creeks and rivers;
Disperse leaves and other yard waste properly by composting, leaving on your
Front lawns; or by using landscape barriers, such as rocks or sandbags.
Street downspouts of at least 10 ft away from your home or business.
Prevent back-up, drain and flood water from勋章ing your green; do not stock up on
landscaping and snow and ice; keep gutters, drains and manhole covers free
from debris; clear gravel, basement and sidewalk drains.

Recycle your Christmas tree
Cut your Christmas tree (unflocked, undecorated tree without
unwanted holiday gift leftovers
You got the goods, now what to do with the not-so-good bulky left-behinds

What to do with UNWANTED HOLIDAY GIFT LEFTOVERS
The gift got you? Now what to do with the not-so-good bulky left-behinds

Collect grease from pans in a drain and sewer pipes and can stick to the inside of your… that grease, fats, oils and… remember that only toilet paper and human or sewer backups. Disposable and/or flushable don’t degrade like toilet paper, and they can clog pipes and cause messy sewer backups. Get your indoor plants... this winter with… will begin in February 2013. Yard waste container so the lid closes… collection. Everyday… collection frequency will change. In Tacoma will determine when your… Don’t freak, we’re going…

Disposing YES Flammable? No...

What NOT to Flush:

- Grease, oil, cooking waxes
- Household hazardous waste
- Chemicals, medicines, pesticides
- Paper towels, napkins
- Wipes, bar soap
- Syngas
- Paint, solvents, thinners

Toilet paper and human waste are the only things you should flush. Please remember that only toilet paper and human waste are recyclable. They should be flushed down the toilet, not thrown into garbage cans. For more information, please visit www.wastefree.org/flushable

Think inside the jar...

Instructions:

1. Cut the top off a water bottle. (Small plastic bottles work best.)
2. In a large bowl, mix together the powdered Ivory soap, borax and washing soda. This is a low-suds formula and can be used... Each batch yields approximately 32–64 loads. 1 cup of borax 1 bar of Ivory soap

What's that WERD?...

The following statements can be found in this issue of Weather. Each sentence has a missing word or phrase. Thank you for helping improve Tacoma’s natural beauty, quality of life, and environment! Each WERD equals 3 points. For more information, please visit www.weatherres freshness.org.

Phone books, magazines, catalogues, books, newspapers, inserts, plastic & paper products, glass bottles & jars, aluminum cans (empty), aerosol cans (empty), yard waste, small engines, batteries, electronics, fluorescent light bulbs, french doors, refrigerators, etc.

Bring recycling for friends, family, neighbors and community members. We can help keep Tacomas clean and beautiful. Call-2-Haul...
