WINCH OPERATIONS: Customer has been trained and understands how to safely and properly operate the winch mechanism used for opening and closing the container lid. Thereafter, customer assumes all responsibility to properly train anyone who will operate this winch, limiting access to only persons that have had proper training. ****BULK RECYCLING:** It is the customer’s responsibility to setup their own account with the recycling company where SWM will be transporting their material, i.e., roofing, concrete, demolition or yard waste. If a container is rented for dumping at a recycling facility and the load is contaminated, the container will be returned to the RTC for dumping and the customer will be charged the applicable RTC rate as noted in the commercial rate table in Section 12.09.120, of the *TMC*.
