The August agenda was approved.

▪ **INTRODUCTIONS**

Chair Phil Coughlan welcomed new STC member Alyssa Illich and asked for self-introductions.

▪ **SOLID WASTE DIVERSION GOAL AND DRAFT RESOLUTION – JIM PARVEY**

There is a City policy to divert 70% of the City's solid waste by 2028. A plan is being developed to track the progress toward that goal. The draft resolution was reviewed by the Commission. It was proposed to develop incremental goals in the Material Management Plan. Research needs to be done to determine achievable milestones. That research will take approximately six months to complete. An annual report will be presented to the Council to track the milestones towards achieving the goal. It was also suggested to do annual presentations to the public. The draft resolution will be updated to reflect the items discussed today and re-routed for review by the next meeting.

▪ **CONSTRUCTION AND DEMOLITION DEBRIS RECYCLING WORKPLAN – BILL SMITH**

Bill Smith provided a PowerPoint presentation. The City is losing revenue due to "Sham Recycling," which ultimately impacts the rate payers. There are two phases to reduce the sham recycling. The first phase will enforce special permits and provide education to the contractors at the same time. Phase 2 will be a review of Phase 1 and determining if additional measures need to be taken. The workplan is in the beginning stages of development.

▪ **FINALIZE DIVESTMENT RECOMMENDATION – JANA FISCHBACK**

The draft letter to Infrastructure, Planning, and Sustainability Committee was reviewed. The members would like to receive a copy to thoroughly review. Once all suggested edits have been made, a final version will be forwarded to members for review before being sent out.
