

greener fruit fly trap

Ingredients:

- shallow jar
- lid to jar or plastic wrap
- fruit juice or cider vinegar

Directions:

Pour 1 to 2 inches of fruit juice or cider vinegar into a shallow jar. If the jar has a lid, carefully poke several holes in it and screw it on. If your jar does not have a lid, cover it tightly with plastic wrap and poke several holes in it. Place your trap in the infested area. When the jar is full, pour the contents down the drain and start over.
