

greener rust remover

Ingredients:

- lime (*you may need one or more per tool*)
- old rags
- newspaper
- table salt
- olive oil

Directions:

Cover work area with newspaper and set down rusty tools. Cover the rusty portion(s) of the tool with table salt. Cut the lime in half and squeeze lime juice on to the table salt until the salt is thoroughly saturated. Let the salt and lime mixture sit for at least 3 hours. Use a clean, dry cloth to remove the salt and lime mixture. Use a second clean, dry cloth to rub a light coat of olive oil on the tool to prevent future rusting.
