

Uber Drivers

A business license is required to operate in the City of Tacoma. Uber and the City of Tacoma are working to make this process streamlined for you. You do not need to come to the City to apply for your initial business license.

Uber will send new driver information (required for a City business license application) on behalf of the driver to City of Tacoma's Tax & License Division. Once the business license application has been processed, the Tax & License Division will send you a Welcome Letter typically within 5 business days of processing.

The Welcome letter will include information regarding your new City of Tacoma business license account in Tacoma and next year's licensing process. Drivers are responsible for renewing their business license with the City every year. Business licenses can be renewed online or by mail.

For questions about your City of Tacoma business license contact the Tax & License Division at forhire@cityoftacoma.org or 253-591-5252.
